

The logo for Influx PLUS features the word "Influx" in a large, light green, sans-serif font. To the right of "Influx" is a graphic of a fan of dots, with a small "TM" trademark symbol above it. Below "Influx" is the word "PLUS" in a smaller, all-caps, light green, sans-serif font. The entire logo is centered within a white circle, which is itself inside a larger, light green, irregular shape that resembles a stylized drop or a bone graft.

InfluxTM
PLUS

ADVANCED
ALLOGRAFT
TECHNOLOGY

Demineralized Bone Matrix putty with added biocompatible carrier for superior handling.

READY-TO-USE DBM PUTTY

Influx™ PLUS Flow

Designed with superior performance in mind, PLUS Flow was engineered with a robust, biocompatible carrier resulting in **exceptional handling**.¹

- + Indications include use as a ready-to-use bone graft in spinal procedures
- + Proven to be equivalent to iliac crest autograft in a preclinical spinal fusion model²
- + Validated processing assures an osteoinductive response
- + Cohesive handling that resists irrigation due to robust biocompatible carrier

Influx™ PLUS Crunch

Combines all the **benefits of PLUS Flow** with the addition of demineralized cortical chips to **eliminate the need for intra-operative mixing**.

- + The inclusion of demineralized cortical chips ensures that the additional graft material does not eliminate osteoinductive potential

AVAILABLE IN MULTIPLE SIZES AND CONFIGURATIONS
